FACILITIES 25X1D 25X1D

Facilities at the shipyard (Figure 2) include five piers, a mole, shop buildings, cranes, a probable transverser, probable shipways, a wet dock, a stores area, an area under construction, housing, support and storage areas. The installation is rail and road served.

Operations Area. The five piers are road served. Piers I, II and III are probably of heavy construction to support fitting out operations. They are 780 by 45 feet, [REDACTED]

*Dimensions in this report are accurate to within 5 feet.

[REDACTED] feet respectively. Piers IV and V are 220 [REDACTED] Approximately 1,650 feet of quayed shoreline exists in this area. A floating dock/transporter [REDACTED] is usually mediterranean moored in the dock between piers I and II. The 510- by 265-foot mole appears to be rock-filled behind bulkheads. It supports two buildings 270 by 35 feet and 140 by 45 feet. The wet dock is 450 by 320 feet inside (550 by 400 feet overall) with a 55-foot wide entrance. A probable [REDACTED] trans-

25X1D verser with 580 feet of travel is located directly
southeast of the wet dock and directly in line
with three probable shipways 575 feet long separated in the center [REDACTED]. A bridge crane
way 185 feet wide by 460 feet long parallels the
shipways. Seven large shop buildings, 330 by
190 feet, 550 by 180 feet, [REDACTED] 295
by 315 feet, [REDACTED] 205 by 80 feet and
[REDACTED] are located southeast of the piers.
A [REDACTED] thermal power plant and a
walled storage area containing two buildings,
[REDACTED] are located near
the south edge of the area. Fifteen storage/sup-
port buildings with 69,800 square feet of floor
space and 11 small miscellaneous buildings are
located in this area.

Stores Area. Open storage and construction
activity dominate this area, which is rail served.
Facilities consist of two quays, 320 by 300 feet
long, the latter supporting a T-head crane, 22
storage/support-type buildings with 161,700
square feet of floor space, two miscellaneous
small buildings and a walled open storage area.

Construction Area. Facilities in the con-
struction area consist of two large bulk-headed
fill areas containing three probable shop build-
ings 240 by 220, 240 by 55 and 170 by 40 feet,

eight storage buildings with approximately
50,000 square feet of floor space, one 115- by
75-foot administration/housing building and 10
miscellaneous small buildings. Two road-served
underground entrances are located on the north
shore of the Bay.

Housing Area. Facilities in the housing area
consist of 26 four-story barracks with 1,195,700
square feet of floor space, 72 two-story multiple
dwelling units with approximately 1,426,000
square feet, an administration-type building with
44,500 square feet, nine single dwellings with
13,700 square feet, five storage-type buildings
with 29,200 square feet and 18 small miscel-
laneous buildings.

Support Area. Facilities in the support
area consist of 16 storage-type buildings with
125,600 square feet of floor space, a secured
storage building with 7,450 square feet, a walled
area containing an administration-type complex
building with 21,000 square feet and two small
miscellaneous buildings.

Storage Area. Facilities in the storage area
consist of 65 storage buildings with 495,400
square feet of storage space and nine miscel-
laneous small buildings.
